

LUNG GUN Model LKE-1

The Jarvis Model LKE-1 - pneumatically controlled gun for high speed vacuum removal of poultry lungs and kidneys.

JARVIS

- Ideally suited for removal of chicken, turkey, duck, and geese lungs and kidneys.
- Operator fatigue and error is reduced by the unique air trigger system.
- Lightest lung gun available - only 1.5 lbs (0.7 kg).
- Instantaneous vacuum - the usual delay associated with conventional guns is eliminated.
- Easy to clean for optimum hygiene - simply suck disinfectant through with the vacuum and spray externally.
- Replaceable tubes and handles reduce maintenance costs compared with single piece construction guns.
- Meets national and international requirements for safety and hygiene.

LIGHTWEIGHT - SUPERFAST

LUNG GUN

Model LKE-1
